Grant Opportunity for Title 1 Schools

The TXDAR Junior Membership Committee is pleased to announce a new platform and deadline for the Title I Grant, an opportunity available to educators in Texas Title I schools. Teachers, administrators, and school support staff working in Title I campuses are invited to apply for a **$500 classroom grant** to support projects that enhance student learning in the areas of health, literacy, and general education. The purpose of this grant is to assist educators in creating engaging, supportive, and effective learning environments for students.

This funding may be used for initiatives that directly support curriculum goals, such as:

- Adaptive classroom furniture
- Sensory tools
- Specialized instructional materials
- Decodable texts
- Literacy resources
- Field trips that directly support curriculum goals

While a variety of classroom needs may be considered, consumable items such as snacks, paper products, and other disposable supplies are not eligible for funding.

To apply, educators must list their sponsoring DAR chapter and provide the chapter's contact information, obtain school administrator approval, and include a brief project description outlining the need and intended impact of the requested funds.

The application deadlines are Jan. 31 and Sept 15.

Applications https://www.txdar.org/classroom-grants will be reviewed and ranked by the TXDAR Grant Committee. TXDAR encourages educators to take advantage of this opportunity to support student success and strengthen learning experiences within Title I classrooms. If applicant is awarded a grant, they are responsible for providing photos and an after-action report to the sponsoring chapter. For more information, please email classroomgrants@txdar.org.
